The Schwaderer baby was born Sunday while the Phelps baby arrived yesterday, afternoon. Mrs. Schwaderer and Mrs. Phelps are daughters of Mr. and Mrs. Roy Stinehelfer of 684 North Main street.

Delegation From Marion To Hear Willkie Accept

Plans for sending a Marion county delegation or a special train to Elwood, Ind., on Aug. 17 for the speech of Wendell L. Willkie accepting the Republican presidential nomination were made last night at a meeting of the Marion County Willkie-for-President club, a Republican headquarters.

Walter D. Moore, club president, announced that the goal of the club's delegation of 700 was high. 320 of the approximately 700 persons present signed up for the trip. Those interested in going should make reservations no later than Aug. 10, either with French Crow, county Republican chairman, or Mr. Moore. Mr. Crow's offices are in the National City bank building and Mr. Moore's at 1334 East Center street.

Although the delegation will parade under the banner of Marion county, any one from counties near Marion is welcome to come, Mr. Crow announced.

Band May Make Trip

It was also decided last night to ask that the Harding High school band be permitted to accompany the delegation. Committees will be named shortly to raise funds to pay for the band's expenses.

Details of the transportation were announced by Mr. Crow, who presided last night. The delegation would travel on an Erie railroad train which would come here from Akron, carrying the 344 on delegation. Marion would be its only stop between Akron and Elwood, the train being enlarged here. It is estimated five coaches will be needed to carry the Marion group.

The cost of transportation will be $3.10 for the round trip.

The coaches will be air-conditioned and the train will include a restaurant car where sandwiches and soft drinks will be served at reasonable prices, Mr. Crow reported.

To Leave Here at 9:15 a. m.

The train will leave Marion at 9:15 a. m. on Aug. 17 and arrive at Elwood at 11:45 a. m. The delegation will be back in Marion at about 9:30 that evening.

Mr. Moore announced the trip and the Willkie club are not strictly Republican in character but are open to any one interested Republicans and Democrats. He reported a great number of Democrats have joined the club which now has some 1,050 members. The club has not conducted a membership drive, but has grown more or less spontaneously, Mr. Moore commented.

Last night's meeting was the first since the club was organized the morning after Willkie's nomination at the Republican convention.

Two-Pound Baby Wins First Round of Fight To Live

The ranks of tiny babies fighting for life against tremendous odds have a new recruit in Marion.

A two-pound baby girl born last Friday to Mr. and Mrs. Russell Benson of Chesapeake, O., at the home of relatives here has passed the most dangerous period of its young life and now has a good chance to survive, the attending physician reported.

The baby, who has been named Betty Lou, is one of the smallest ever born here.

One of the most unusual things about Betty Lou is the fact that she isn't an incubator baby in the strict sense of the word, since she hasn't had the benefit of an incubator or other modern developments of a maternity ward.

She has been cared for at the home of Mr. and Mrs. Everett Spears at 286 Clinton street where she was born with Mrs. Spears taking care of the baby under the physician's supervision. Until today, Betty Lou had been fed condensed milk and water. Tomorrow she probably will be placed on a diet of special baby food, the physicians said. During the first two days it was necessary to feed her with a medicine dropper but since then Mrs. Spears has been preparing the milk in a doll's bottle.

Betty Lou was born prematurely which probably accounts for her diminutive size, the physician said.

It could not be definitely determined today whether she is the smallest baby in Marion's medical history but [illegible] Perkins, [illegible]

HEAT DEATHS REACH TOTAL OF 103 IN OHIO

Record for Single Day's Fatalities Set Tuesday With 17.

At least partial relief from the heat wave arrested in Marion and other sections of Ohio today.

The official temperature recorded here at noon today was 84, the lowest noonday mark in more than a week, and some eight or 10 degrees lower than the average reading for the hour since the heat wave started. However 86 degrees was above the statewide average in Associated Press reports indicated. Cleveland had Toledo 78, Columbus 79 and Cincinnati 82.

Temperatures soared above the 100 mark over large areas of the nation yesterday while in Marion the maximum temperature recorded by Weathermar E. H. Ruffensperger was 87, only one degree lower than the record 88 reported last Thursday.

There were 17 prostration fatalities in Ohio yesterday, bringing the state toll since the beginning of the heat wave to 103. The Associated Press reported an unofficial reading of 107 degrees was reported at Springfield.

Showers brought at least temporary relief in several sections of the country but government observers predict there is no general relief in sight to east of the Rockies. The official government forecast is for generally fair weather tonight and tomorrow with somewhat lower temperatures tonight.

Temperatures in Marion yesterday ranged from the high of 87 degrees, recorded about 3 p. m. to a low of 73 during the night. This compares with a maximum of 82 and a minimum of 58 a year ago.

17 Heat Deaths Ohio's Toll for Day

By The Associated Press

Heat deaths in Ohio reached the level of the state's torrid temperatures today but there was a new promise of relief.

The death toll for the past 12 days stood at 103 with 17 prostration fatalities—the largest number for a single day—reported yesterday.

An official forecast from Washington was for fair but cooler weather with showers in the south portion only, while at Cleveland Meteorologist Ralph C. Maze predicted relief would come from scattered thunder showers.

Cool air from the upper Great Lakes region will cause rain and moderate temperatures that "should prevail several days," Maze said.

Milk Prices Up

Meanwhile the withering dry spell brought a one-cent increase in quart milk prices at Cleveland and threat of a shortage in Hamilton county. W. E. Weaver, superintendent of the Hamilton county experiment farm reported "seri-

START INSTALLATION OF PARKING METERS

Devices Expected To Be Put in Service Saturday.

Workmen early today began installation of parking meters in the uptown section of Marion. The machines probably will be placed in operaion Saturday.

Burton Floyd of Oklahoma City, installation supervisor for the Dual Parking Meter Co., is in charge of the work. He directed a crew of men who today were using pneumatic equipment to drill holes through the sidewalk for placing the standards.

The standards are to be placed permanently tomorrow and the meter units will be attached Friday, Lawrence E. Tompkins of Cleveland, Ohio representative of the meter company, reported.

IN DEBATE OVER NATION'S FIRST PEACE-TIME DRAFT BILL

HULL PLEASED AS PARLEY ENDS

American Republics Present United Front on Questions of Joint Concern.

By The Associated Press

HAVANA, July 31—The 21 American republics formally presented a united front today against political and economic dangers from other continents in a three-point program which Secretary of State Hull regarded with deep satisfaction despite last minute reservations by eight nations.

The Havana conference, after setting up new machinery to bolster the solidarity of the western hemisphere, concluded last night with formal signature of documents amid flurries of cheers.

All the delegates signed the Act of Havana" and supplementary agreements, although the Argentine delegation—which had argued against anticipating need of action concerning European colonies in the new world—led seven other nations in a succession of reservations.

Make Reservations

The delegates of Argentina, Chile, Colombia, Uruguay and Venezuela specified that the agreements be ratified by their governments before participation. Mexico, Bolivia and Peru made reservations as to minor points.

The program consists of:

1. The act of Havana declaring all the republics opposed to transfer to other non-American nations or attempt to transfer or acquire interest in European possessions in this hemisphere.

2. Inter-American cooperation, through consultation and mutual exchange of information to combat "fifth columnists" or other subversive elements.

3. Mutual effort to settle American economic problems, including market dislocations resulting from the European war, and "economic defense" against encroachment of European barter systems.

Provisions of Act

The Act of Havana provides for joint administration of any foreign possession threatened by a non-American nation, but also

(Turn to HAVANA, Page 4)

Appearing before the house military affairs committee in Washington, Norman Thomas (left), Socialist leader, attacked the Burke-Wadsworth conscription bill as "totalitarianism." New York's Mayor Fiorello H. LaGuardia (right), termed the first peace-time draft bill in U. S. history "the only means of keeping us out of war." Center is Representative Andrew May, committee chairman.

Ohio Congressmen Oppose Military Training Bill

Eighth District Congressman Frederick C. Smith of Marion is among members of the Ohio delegation in congress opposed to the pending compulsory military training bill according to result of a news poll announced today at Washington. The Ohio delegation is overwhelmingly against the legislation.

J. Harry McGregor of West Lafayette, representing the Seventeenth district, including Delaware county, is also opposed. Clarence J. Brown of Blanchester, representing the Seventh district which includes Union county, refused comment.

Among the comments made were those by Congressman McGregor.

"I'm against the draft now. It's the first step toward the goose step. Hundreds of young men in my district would be ready to join the army now if the enlistment period were shortened to one year."

Only one Ohioan, Dow W. Harter, (D) of Akron openly favors the draft bill. The poll showed 1 for, 8 against, 12 leaning against, 2 uncertain, 2 absent, 1 refused comment.

It was reported both Ohio senators, Taft (R) and Donahey (D), will vote against conscription unless the bill is drastically modified.

GALION PLANT AWARDED BIG WAR DEPT. ORDER

By The Associated Press

WASHINGTON, July 31 — The war department today awarded a contract of $238,381 to the Galion Iron Works & Manufacturing Co. of Galion, O., for motorized road graders.

MILITARY ROAD NEAR MARION

Route Through Morrow Co. To Get Attention in Preparedness Plans.

State Route 61 from Sunbury to Mt. Gilead has been designated a military route and hence will receive priority over other highways in this section of the state, Ohio's 1941 road program officials of the state highway department announced today.

Highway Director Robert S. Beightler told The Associated Press in Columbus today that road working during the next year may have to be concentrated on military roads in keeping with an emergency measure recently adopted by the U. S. senate instructing public works administration officials to give priority to military roads in making PWA appropriations. Beightler said final enactment of the legislation would have considerable effect on Ohio's highway program, much of which is on a federal-aid basis.

Plans are to be sent to Washington soon for the extension and improvement of Ohio's military road system, Beightler reported.

Route 61 from Sunbury to Mt. Gilead designated by the highway department as part of a north-south military road running from Portsmouth to Cleveland. The road follows U. S. 23 from Portsmouth to Columbus, State Route 3 from Columbus to Sunbury, route 61 from Sunbury to Mt. Gilead and U. S. Route 42 from Mt. Gilead to Cleveland.

Compulsory Drill Measure Changed by Senate Group

By The Associated Press

WASHINGTON, July 31 — The senate military committee amended the Burke-Wadsworth compulsory military training bill today to require the registration only of men from 21 to 31 years old instead of those between 18 to 64.

The senate group, a few [illegible] the house military committee was hearing from Secretary of War Stimson, testimony that President Roosevelt [illegible] Great Britain might be conquered in 30 days and that Japan [illegible] sympathy with Italy and Germany.

Stimson gave his full support to the Burke-Wadsworth bill and also [illegible] the senate committee [illegible] the war department had indicated [illegible] and that the budget bureau [illegible]

Stimson said the change was suggested by Senator Lee (D., Okla.) and seconded by Senator Hitchcock (D., Neb.). Final committee action on the bill will be taken tomorrow, Smathers said. It was expected to be approved.

Stimson declared today that the only way to meet a war emergency is by compulsory military service. The system of voluntary enlistments he said has been a costly failure.

Stimson said of the relative merits of the draft and compulsory systems of training men:

"It would be just as fair to leave to the whim of the individual the question of whether he should render service in time of war as to leave to the whim of the individual the question whether he would pay taxes. And it would be a good deal more dangerous."

The voluntary system not only is inadequate but disruptive of industry and agriculture and the sciences and specialties on which the nation must depend in time of war."

Turning to the Burke-Wadsworth bill specifically, the secretary described as formalistic reasoning arguments that it was premature.

"The underlying purpose is protection against danger, whether that danger has landed on our backs or whether we see the danger coming," he said.

"I ask the members of this committee if we are not confront-

English South Coast Ports Hard Hit by Germans

By The Associated Press

BERLIN, July 31 — The German high command announced today that the important south English ports of Southampton and Plymouth were bombed last night in spite of bad weather which is hampering operations of the German air force.

It also said that only a few British planes flew into western Germany last night and two of the invading planes were shot down.

"As subsequently learned, a total of 21 British planes was shot down July 29," the communique said.

Two British planes were shot down yesterday in raids over Germany during which they allegedly attacked [illegible] city of Heidelberg, [illegible] to the high command [illegible]

FIVE BILLIONS VOTED FOR U. S. DEFENSE WORK

Army of 2,000,000 Men Also Provided in New Military Appropriation.

By The Associated Press

WASHINGTON, July 31—The house appropriations committee recommended today the spending of nearly five billion more dollars to start a two-ocean navy and equip an army which might number 2,000,000 men on combat status.

The huge expenditure, exclusive of $4,084,[illegible] bill President Roosevelt said was necessary to [illegible] national defense during the [illegible] months. [illegible] and navy to the [illegible] breaking total of $10,040,[illegible]

Of the pending bill's total $3,18[illegible] would be provided in direct appropriations and the balance of $1,[illegible],000,000 in contract authorizations by which congress could have to provide the [illegible]

Permits Proper planning

While the committee emphasized that much of the equipment to be bought with the new money would not be obtainable for months to come, it stated that approval of the program at this time would enable aviation and procurement agencies of the government to plan their work efficiently.

The report [illegible] means placement [illegible] the committee said, which is neither sound nor economical in an emergency nor good business procedure.

During hearings on the measure, Gen. George C. Marshall, army chief of staff, testified that if congress authorizes immediate mobilization of the national guard and a system of compulsory military training, both of which he said were needed imperatively, an additional $1,000,000,000 would be needed for maintenance of such a force in the current fiscal year.

Specific details as to the number of tanks, guns and other weapons which would be procured were kept secret but the committee recommended approval of the budget bureau's request for 18,[illegible]-804 airplanes of various type, of which 4,028 would go to the navy, giving that service approximately 8,000 serviceable planes.

Except for a $7,000,000 item for a large graving drydock in New York harbor, the subject of pending authorizing legislation, the committee approved the President's requests without change.

Only One Change

In broad outline the new funds and contractual authority would be as follows: New ship construction, $230,000,000; alteration and conversion of naval vessels, $75,000,000; aircraft for both army and navy, $2,088,402,304; material for army, navy and marine corps, $2,037,705,012; public works projects for army and navy, including housing and storage facilities, $158,382,800; and bomb production facilities, $335,000,000.

A new, semi-automatic rifle which would cost half as much as the Garand, now the army's standard, was described by Maj. Gen. Thomas Holcomb, commandant of the marine corps, in committee testimony. He said that in a demonstration by the makers, the Winchester Repeating Arms Co., the weapon "appeared to us to be a complete answer to what we need."

VACANCIES FILLED AT TOWNSEND CLUB MEETING

Vacancies in the officers council of Marion Townsend Club No 2 were filled last night at a twilight lawn meeting at the home of Mr and Mrs J E Lewis on Blaine avenue

J J Melvin was elected membership chairman, Mrs. Louise Bent, program chairman, and Mrs. Paul Miller, chairman of the ladies' auxiliary. All will complete unexpired terms.

Plans were made for a delegation from the club to attend a tri-state Townsend rally at Cedar Point next Sunday at which Dr Francis E. Townsend, founder of the movement will speak Arrangements also were discussed for an ice cream social Aug 7

The program included accordion selections by William Landes and a talk and vocal music by R L Parsons, 73-year-old singing evangelist from Summershade Ky The next meeting of the club will be held at the Druids hall Aug 6

TOM CLARK WINS IN TENNIS SINGLES

Defeats Ralph Carhart in Y Tourney Finals.

Tom Clark won the men's singles division of the Y tennis tournament as he defeated Ralph Carhart in the finals last night at the Y courts Miss Maxine Buettin advanced to the finals of the women's singles by defeating Miss Esther Guthery

Clark displayed championship form as he downed Carhart 0-6 6-1, 7-5 and 6-0 After getting off to a bad start in the first set Clark out-maneuvered the veteran Carhart the rest of the match Both players were pre-tournament favorites to reach the finals Clark defeated Gene Roberts in the semi-finals while Carhart turned back Dee Hunt for the right to play in the finals.

Miss Maxine Buettin will meet Miss Donna Williams today in finals of the women's singles. Miss Buettin defeated Miss Esther Guthery 6-4 Miss Williams defeated Mark McKitrick in finals.

War Seems Headed for Even Greater Terror in Future

By DEWITT MacKENZIE

Whatever way you look at it the Anglo-Axis war is headed for even greater tragedy than has yet been dealt out to unhappy Europe

First has to be determined whether Herr Hitler can annihilate the English with his blitzkrieg—and this promises to provide one of the bloodiest battles in history, if he carries out his full program of invasion

If he isn't able to knock Britain out in the immediate future by such an assault the conflict will settle into a war of attrition That will be nasty

Each side will try to starve the other into submission by blockade Apart from the suffering produced by hunger this means economic chaos for the whole continent

Bombings Intensified

Both sides will increase the intensity of their bombings—winter weather permitting—which means that the skies will continue to drench civilians with horrible death

Widespread reports have it that the Germans and Italians are ready to launch the big assault on England We are justified in assuming from all the facts at hand that they are indeed prepared, but we must await the sailing of the armada before we shall know that the invasion is a certainty. There is so much propaganda about these days that we have to depend a good deal on our eyes for the

Britain's [illegible]

BRITISH ORDER NEW SETUP FOR BLOCKADE

Ban To Extend from Arctic to North Africa.

By The Associated Press

LONDON, July 31—Britain today ordered a blockade extending from the Arctic to northern Africa, effective at midnight tonight on order in council giving effect to the policy announced in commons yesterday by Hugh Dalton, minister of economic warfare

In future non-British shipping companies will have to agree always to employ navicerts—form of passport for ship cargoes—in order to enjoy services such as coaling, drydock and insurance facilities at Britain's worldwide ports

Ships of offending lines entering British ports may find difficulty even in getting water

The object of this system is to deter neutral shipping from attempted blockade running.

The [illegible] of economic warfare [illegible] new system would [illegible] blockade [illegible] [illegible] [illegible]

The Stars Say—

For Thursday, Aug 1

PRIVATE affairs of a domestic social or sentimental character are to the fore on this day with business or other commonplace activities centered on such intimate functions or ambitions. Friendship courtship and forms of conviviality and celebration may be stressed.

Those whose birthday it is may be prepared for a year in which their purely personal adjustments to life may bring happiness and gratification. While the attitude may be steady serious and worthy pleasure festivity and major activity may involve the domestic social or emotional relations. Such business as relate to these or to artistic expression in any of its forms may contribute to make this a happy joyous year.

A child born on this day should be studious steadfast and ambitious although its aspirations may lie in the direction of art social or emotional expression. It should make a happy and successful life.

When the handle of a new box is containing a valuable article is carrying it with the box is automatically lost.

BIRTHDAY SURPRISE HELD AT HOME NEAR EDISON

EDISON—Mr and Mrs Lon Weir and children Mr and Mrs Harry Wittred Miss Ruth Wittred of Kirkpatrick Mrs A J Nance Miss Ella Nance Mr and Mrs Joe Morton Mr and Mrs Orville Morton and daughter Robert Scott of Caledonia Mr and Mrs Roger Sox of Marion Mr and Mrs C C Pinyard and Mr and Mrs Elmer Hipsher gathered at the home of Mr and Mrs D A Nance Sunday as a surprise in honor of the birthdays of Mr Nance and children Donna Ann and Bryan.

• • •

The Ladies Bible class held a picnic supper at the home of Mrs. E R Powell Friday.

• • •

A Boundary community meeting was held Friday. On the program were accordion music by Dorothy Dalrymple of Edison saxophone solo by Colby Vanatta of Edison readings by Beverly Wooster and Margaret Hagerty Margaret Kunze gave a talk on a recent trip. • • •

The eighteenth annual homecoming of the Boundary church will be held Sunday Aug 4 Services will begin at 10 30. A basket dinner will be held at noon.

Daily Pattern for Home Use

By ANNE ADAMS

NEW STREET FROCK AND BOLERO

PATTERN 4508

TAKE BIDS ON POOL AT PARK

Upper Sandusky To Build Recreation Center at Municipal Playground.

Special to The Star

UPPER SANDUSKY, July 31—A modern swimming pool will be ready for the 1941 season at Harrison Smith park The board of public affairs recommended that the low bids on the project be accepted and the council approved and accepted the recommendation The cost of the pool is to be $28 820 01

Bids accepted were as follows H W Baker of Wharton general construction of pool and bath house $12 400 Herman Stephan of Upper Sandusky electrical work $942 J F Dible of Carey plumbing $3 897 0 and for drainage to river $ 18 Cyclone Fence Co of Columbus $568 American Playground & Device Co, pool equipment $394 50 Roberts Filter Manufacturing Co of Darby Pa filtration equipment $4 045, Van Atta Hardware Co lockers, $241 82 A special contingency was also set up allowing for the additional expenditure of $700 to provide for brick instead of frame construction for the bath house This addition would make the total cost of the pool $21 2 8 09

The pool will be financed by the sale of general obligation bonds to be paid either on the 15 or 20 year basis on the annual installmen plan Baker had made no bid on brick construction for the bathhouse

It is expected that actual construction work on the project will be started by the end of summer and that most of the work will be completed yet this fall The board of public affairs however must first advertise for bids for sale of the bonds

The pool is to be constructed of concrete with inside dimensions of 120 by 50 feet with the floor sloping from a shallow depth at one end to about five feet at the opposite end It will be equipped with two diving boards and one slide A 42 by 16 foot wading pool will also be built at one end of the pool

The bath house will be constructed at one end of the pool the main structure to be 58 by 28 feet with small wings at each end for toilets for both the public and swimmers The entire grounds will be surrounded by a fence and a concrete walk will extend around the pool

Large Crowd At Henney & Cooper Public Preview

Several thousand persons visited the new store of Henney & Cooper Inc at 130 West Center street last night at a special preview before the formal opening of business today More than 2 000 visitors were served free refreshments at the fountain and these represented probably only about half of the number of people who inspected the store officials reported

The preview was scheduled from 7 30 to 11 p m but a great number visited the store earlier in the day

The store is the Marion agency for the Walgreen Drug Co but remains under the ownership and management of Henney & Cooper Inc

An Italian has invented a four wheeled bicycle in which two riders are seated facing one another operating it side

WHERE EXPLOSIONS AND FIRE DESTROYED NEW JERSEY PAINT PLANT AND HOMES

Property loss was set at $2 000 000 several are dead and scores were hurt as fire and terrific explosions destroyed a paint plant at Camden N J The fire spread into nearby residential and business sections Smoke is shown here rolling from the block-long paint plant as firemen fought the blaze

Vitamin Expert Is Speaker at Rotary Meeting

Marion Rotarians and guests gathered some new and inside information about vitamins Tuesday when Prof J F Lyman head of the department of agricultural chemistry at Ohio State university appeared as speaker in the program following the club's weekly luncheon meeting at Hotel Harding

Prof Lyman was introduced to the club by R T Lewis as one of the country's leading authorities on the subject of vitamins

Gives History

In his talk he started with a history of the discoveries made by scientists in the study of food ingredients and values This included an account of a series of developments starting in 1876 when an admiral in the Japanese navy learned that there was a difference in food values between the rations given Japanese seamen and those of the British army and navy The Japs suffered from a deficiency disease known as beri beri the British did not Next it was a similar discovery of an Italian physician on the Island of Java in 1896 then one in 1911 by a chemist in England and ultimately experiments conducted in 1912 by Professor Hopkins who is now credited with leading to the actual discoveries which have brought out a total of at least nine vitamins

Starting with A the series has carried on through W, but it is probable there have been some duplications Prof Lyman said

The speaker exhibited several small bottles containing specimens of vitamins some expensive some purchasable for as low as 10 cents Prof Lyman said the subject of what vitamins can do for the human race is of almost limitless scope He summed it up by saying that there is at least one disease for which each vitamin is cure

W Camp Next Week

Announcement was made that the next meeting of Rotary will be at Camp John A Owens Tuesday Aug 6 where pupils of the school for crippled children will be having their annual weeks outing as guests of Rotary The Rotarians visit will start with a dinner at 6 30 p m followed with a program by the children Rotary Anns will also be among the guests.

Frank B Morrison who was a charter member of the Marion Rotary club and also a secretary has again enrolled with the local organization after an absence of several years from the city and was extended a welcome at yesterday's meeting

Minister Is Guest

Among guests of the club Tuesday was Rev Henry Edward Rompel of Ottawa Ill who is visiting his son, Rev Nobel Rompel pastor of the Green Camp Methodist church The father is pastor of the First Methodist church at Ottawa and a past governor of Rotary district No 41 of Illinois

Other guests were Burke White of Bernardsville N J and Robert Canady of Danville Ill both Rotarians and Robert Greenleaf of Columbus

MT. VERNON CAGE COACH TAKES CANTON POSITION

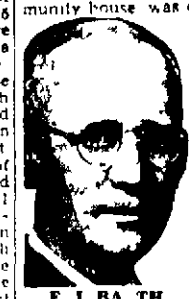
Farm Bureau Speaker Urges Stricter Requirements for County Officials

Legislative Agent, at 4-County Meeting, Cites Lack of Laws Governing Fitness of Sheriffs.

A meeting of Farm Bureau members of Marion Morrow Crawford and Richland counties ended yesterday afternoon with talks by L A Taylor assistant secretary of the Ohio Farm Bureau Federation Edward J Bath legislative representative and L F Warbington director of Farm Bureau education

The meeting held at the First United Brethren church community house was one of a series to be held throughout the state to formulate the bureau's program for next year Mr Taylor spoke on the work being done by cooperatives to minimize the difference between what the farmer receives for his products and what he pays for commodities he must purchase Taking the average market prices from 1910 to 1914 as normal Mr Taylor explained that farmers now pay 27 per cent more for the articles they buy than they did during the normal period while the value of farm products is now about two per cent less than during the 1910 1914 period



F J BATH

Cites Credit Problem

One of the greatest problems confronting the farm Bureau and other cooperatives is the enormous credit problem which has arisen in recent years Mr Taylor stated At present the Farm Bureau federation's accounts receivable represent 90 per cent of the federation's capitalization with the result that virtually all the funds on hand for operating costs are tied up in credit he said He suggested that cooperatives develop means of improving their credit program

The need for more efficient public officials was emphasized by Mr Bath the legislative agent who talked on legislation pending in the state and national legislative bodies and outlined several reforms that have been suggested by men close to farming and law making

Public officials particularly those holding elective county offices are frequently less efficient than they should be due to a lack of state requirements he said He attacked the county sheriff system in particular pointing out that no training is required either before or after a sheriff is elected to office He contrasted this situation to the extensive training given other law enforcement officers such as the state highway patrolmen and police in many cities

Discusses Tax Proposal

Mr Bath also discussed the proposed Homestead amendment to the state constitution which would exempt from taxation all residential and farm real estate up to $5 000 valuation Original plans of sponsors of the amendment to place the proposal on the November ballot have not materialized but plans are being made to submit it to the state legislature this fall he said

Mr Bath neither indorsed nor objected to the proposal stating he felt that Farm Bureau members should discuss it and then take a stand He explained the law would exempt virtually all farm property from taxation at least all the property of the small or average farmer However he said he questioned the wisdom of the proposal since it would be necessary to levy substitute taxes of some sort to meet governmental expenses

Praises Work of Councils

Mr Warbington described the $50 Farm Bureau advisory councils now being maintained by more than 5 000 families and stressed the need for many more

The swift changing world of our day demands a speeding up in our educational action for only by so doing can we hope to make democracy work he said

The advisory councils organized in small local units are designed to help the individual farmer work out his problems through discussion of farm activities and neighborhood cooperation he explained

Small district conferences such as the one held here yesterday are to be held throughout the state during the next few weeks followed by five regional conferences and a state conference in September

...APTER 32

The Whole Truth

T ...n guard closed the ...d stayed outside the He may have been I don't think Julia ...e or would have ...e had She went straight to Jeff and put both her hands in his

"We'll get you out of this, she said in the voice you would use to a frightened child 'It isn't that Dan thinks you did it, he just has to take some action It's the second murder and they haven't got anywhere with the first, yet

It's worse than that, he said through stiff lips. They found a blood stained towel in my laundry hamper Dan asked me to explain it but how could I? I don't know how it got there

Julia's eyes blazed. 'Someone's trying to frame you Any idea who?'

Don't you suppose I'd tell if I knew?' he asked wearily Who gave her that black eye? I didn't

She drew a deep breath and her face warmed almost to a smile

I knew you didn't she said I looked away from them because it wasn't decent to see their defenseless eyes But I had learned something It was the first time I had seen Jeff with the barriers down

They stayed down only an instant Suddenly he freed his hands from hers and backed away fairly bristling with barbed wire defenses. I don't think it was anything she said or did it was just reaction from that movement of forgetfulness

How would it be Julia began bravely if we sat down and talked it over? Maybe we could think of something—

There's no place to sit except one chair and the bed he said churlishly And there's nothing to talk over If you've come here to pump me you can get out he glanced at Julia's hurt bewildered eyes and seemed to grow angrier He was like a man fighting his own shadow'

You've probably heard he went on with a cold look at me that my wife was afraid to occupy a room with me You can believe that or not just as you please It's a matter of indifference to me I married her I don't know who killed her I don't know who killed Ivan And you can pump until you're black in the face and still go back and tell Dan that's all you found out

Julia stamped her foot

"I did not come here to find out things for Dan" she stormed "I came here to help you, but I don't know why I bothered. I've already bled myself blind, and so has Kay——'

She stopped, appalled at what she had said

"Then you'd better tell the truth from now on," he said icily 'When I need lies told for me I'll let you know

He went to the door and opened it, held it until we had passed through

Head high Julia marched down the corridor and out of the hospital but as soon as we were in the car she gave way to a storm of tears. I took the wheel and drove aimlessly for a while waiting for her to get control of herself

Cold Fury

"If only Adam were here" I said finally out of the depths of my thoughts Julia he was right Jeff was right We'd better tell your father the truth"

Oh no Kay you don't mean that—not with Dan already thinking Jeff killed her

But the only way we can do anything to help Jeff if he isn't the murderer is to find out who is. And how can we expect to arrive at the truth until we all pool our knowledge"

But don't you see—all we've withheld is just what will make it look blacker for Jeff And I know he didn't do it!

Oh no that isn't all How about Mim—you said it was her car that night at the barge We haven't told that"

I never said that she said quickly desperately You're imagining things

So that was the way of it I fell silent thinking until we drew up once more at the colonel's quarters Then before I got out I gave her my considered decision

I'm sorry Julia If Adam were here I'd go to him with it Since he isn't it will have to be your father

You mean — you're going to tell him everything?'

She looked stunned as if her last friend had deserted her and I had to steel myself against sympathy

Everything I said firmly It's different now Sandra's death —and the way she was killed—— There's no use talking Julia someone around here isn't human And every lie we tell is in that creature's service I'm not going to take the responsibility

I see she said

Her tears were dry and there was cold fury in her voice She got out of the car and walked without a backward glance into the house and up the stairs to her room

I had to see the colonel at four I followed her into the house

Mimi must have been lying down for the living room and library were untenanted So presently feeling myself an unwelcome guest I went up to my room and put my things back in my overnight bag

I went down as soon as I heard the colonel come in and faced him with inner quaking across his big desk in the library

Colonel Pennant I have a confession to make I began

I hope you don't mean that literally he said with a nice smile The smile put me a little more at my ease After all I had danced with this man and laughed at his jokes and warmed to his good natured flattery He looked a little tired this afternoon and his eyes were sad, but he was not formidable

He placed a chair for me found cigarets and supplied me with a light Then he went back to his chair behind the desk and looked at me expectantly

'I've been holding something back I said looking him straight in the eyes This isn't going to be easy because Julia and I don't see alike about it and it's sort of like telling tales out of school to come to you with it"

You mean Julia has been holding out on me, too?' he asked impassively

Yes but with the best of motives Please don't let me get her into trouble I'm fond of Julia I know she's straight I just think she's mistaken about this But where Jeff's concerned—you see, she's in love with him"

'Good Heavens!'

He stared at me across the desk

Blacker For Jeff

'Maybe I shouldn't have told you but I thought it would make you understand better It's quite true I assured him

'I hope you're mistaken" he said simply Jeff will almost certainly stand trial for murder

You mean you think he's guilty?"

He opened his hands as if to show his helplessness

'It isn't a matter of what I think I'm not all-powerful I can't obstruct justice by shielding my friends Civilian authority can't simply be flouted——

Julia said——' I began

'I know Julia thinks all I have to do is wave a hand But these things are ticklish Civilian authorities were called in about those cars and about Ivan's murder He was a civilian So was Sandra though in one sense she comes under my jurisdiction But murder is different. It's a military crime, but it's also a civil crime Even if Jeff were tried by court-martial he could still be subject to civil trial And I doubt if I could successfully oppose the arrest for murder of any of my personnel Except by the one step I have taken'

"You mean—by arresting Jeff yourself? Oh, but why didn't you explain all that to Julia? It would make her feel so much better She thinks you're convinced of Jeff's guilt——"

I saw his face then, and my words trailed off

"Jeff has been like a son to me" she said slowly, after a little pause "Don't you think I'd rather believe him innocent? But what am I to think? First Ivan, now Sandra There's only one common factor, and it's Jeff. Then there's that blood-stained towel ——"

"But don't you think that was too stupid to be true?"

"Murderers aren't all as clever as the ones in books" he said drily And he had obviously manhandled Sandra——

He told us he didn't give Sandra that black eye

Would you expect him to admit it? Then the chaplain—he has rooms next to theirs at the club—told me reluctantly this morning that he heard them quarreling for about an hour after they got home from the reception He said he couldn't hear any words but they both sounded angry And Jeff didn't deny it He just refused to say what the quarrel was about

It may have been merely because she had appeared in public looking like that But the fact that they quarreled doesn't necessarily mean that he killed her does it? Colonel Pennant looked deeply troubled

I don't want to think the boy is guilty he said But if he isn't who is?"

I wish I knew I drew a deep breath and plunged And the worst of it is that what I have to tell you is only going to make it look blacker for Jeff That's why Julia doesn't want it told And maybe she's right But I have an old fashioned belief that when you get together all the pieces of the truth that are available you'll begin to see the whole truth And—if Jeff really did kill her Julia might better find it out as soon as possible Because I think he's in love with her too

He looked at me helplessly

'It isn't polite to tell a lady she's demented he said with a quirk of his mouth that didn't quite make a smile Well never mind I'm accustomed to female intuitions and admit to my sorrow that they're often sound Suppose you tell me what you know

So I told him of our seeing Sandra and Ivan embracing on the barge of Jeff coming up the ladder and Julia sending him off down the beach alone And how Sandra had come down presently and left Ivan up there and that as far as we knew he had not left the barge alive

To be continued

WHEAT ALLOTMENT FIGURES MAILED

Total for County Only 38 Acres Lower Than 1939.

Wheat allotments for Marion county farmers, just mailed out from the agricultural conservation office will be substantially the same size as last fall, C P Harper county committee chairman, announced today

The county's allotment last year was 24 083 acres and for this fall is 24 045 acres, a decrease of 38 acres.

"This means the individual allotments will compare favorably with those of 1940' Mr Harper said

Producers whose allotments are in error may appeal to the committee at 220 East Church street within 15 days from the date of the allotment notice Some 1 500 farmers were mailed allotments

FRECKLE KING

It's easy to see how Johnny Rotchford, 12 of Dorchester Mass won the title King of Freckledom in the Boston Boys club contest

YOUR HEALTH

By LOGAN CLENDENING M.D

Bare Feet

WHENEVER the bare feet come in contact with the flooring of a shower bath or the platform around a swimming pool or the springboard by river or ocean there is the possibility of picking up a small vegetable fungus invisible to the eye which lives to feed on moist human skin It causes the commonest of American skin diseases—a breaking out in the form of little blisters which itch intensely and become inflamed on scratching. This being the bare feet and swimming season they are particularly likely to occur just now When the skin gets wet it gives an additional invitation to ringworm invasion — commonly called athlete's foot

Get at it early with prompt treatment and you will save yourself a lot of trouble If it develops into a chronic case successful treatment is very difficult The fungus will attack skin on any part of the body and may easily invade the hand get under the fingernails from scratching and be carried to any part of the body A complication occurs when the blisters get infected and this requires special treatment

When you have a fresh eruption the blisters should be broken using a fine needle that has been dipped in tincture of iodine and the entire surface painted with mild tincture of iodine (U S P) The eruption is especially likely to appear between the toes and in boy's schools is called toe rot If the iodine does not clear it up apply Whitfield's ointment obtainable at any druggists for a few nights

Prevention of reinfection is important Stockings should be changed daily Disinfection of shoes may be done by inserting a piece of blotting paper on which has been poured a teaspoonful of Formaldehyde solution wrap them up for twenty four hours and then give them a good airing

QUESTIONS AND ANSWERS

Reader— I would appreciate a diet for yellowing of the skin I would like to know if pure olive oil used as a dressing for different foods is all right to take With the yellowing of the skin there is also constant constipation

Answer—Olive oil is perfectly good food under these circumstances and will not do you any harm It is quite possible that you are taking some kind of a cathartic which produces a change in your blood and makes your skin yellow Constipation itself does not produce yellowing of the skin popular belief to the contrary not withstanding

Camp Session Set For Farm Women Of Four Counties

Marion county's farm women will desert their families for a few days from Aug 8-11 and join with rural homemakers of Wyandot Crawford and Seneca counties in an outing at Camp Pittenger east of McCutchenville

Plans for the annual women's camp were announced today at the office of County Agricultural Agent Homer S Porteus, where applications will be accepted through Aug 3 Registrations may be made for the entire camp session or for a visit on any particular day The camp session is open to any adult rural homemaker in the four counties

Purposes of Camp

A bulletin issued by Mr Porteus describes the purposes of the camp in seven words—vacation recreation inspiration relaxation friendship fun, rest

The camp is well equipped with a screened dining hall and screened cabins bunks with springs and mattresses electric lights large recreation hall in a new lodge and facilities for swimming and boating all in beautiful surroundings.

Women planning to attend were advised today to wear old and comfortable shoes wash dresses or camp clothes They should bring along four blankets a pillow flashlight camera bathing suit sweater or jacket raincoat or umbrella camp chair or stool toilet articles wash pan costumes for campfire programs and a musical instrument if they play

On Camp Staff

The camp staff will include Miss Mary Wiseman Crawford county home demonstration agent Miss Doris Snook Seneca county home demonstration agent and a representative of Marion county

There will be a special program on Thursday night consisting of pictures shown by E T Rodgers of Tiffin taken on a recent Mexican trip

IN DISGUISE

Without the gold braid trimmings to which his rank entitles him, this might be any pipe-smoking civilian. However, it's Admiral J. O. Richardson, commander-in-chief of the U. S. navy, Hawaii-bound from San Francisco.

Anthony Caprino, 26, of 195 Sharp street was in charge of the bus.

Cars driven by Donald Coffey, 15, of 139 Garden street and Mrs. Hazel Mahaffey, 47, of 126 West Farming street collided at Church and Union streets last night about 10 o'clock, police reported. Both were headed west and attempting to turn onto Union street when a fender of Coffey's car hooked the front bumper of the other automobile, officers said.

In a report yesterday of an accident in which John A. Hiller, 66, of 505 Davids street was injured Monday when he was hit by a truck while riding a bicycle it was incorrectly stated that the cyclist was attempting a left turn at the time of the accident. Mr. Hiller reported today that he was southbound on Davids street and was not making a turn. He received treatment at City hospital for abrasions on the head, back and arms and was removed to his home last night.

BIRTHS

Mr. and Mrs. Paul Harkus of Cleveland are parents of a daughter born yesterday in a Cleveland hospital. Mrs. Harkus, granddaughter of Mrs. Jennola Taylor of Morral, is the former Miss Jennola Steele of Morral.

Mr. and Mrs. Hubert Shelton of east of Marion are parents of a son born at City hospital this morning.

FINED AT CARDINGTON

Paul S. Joos, 30, of Cleveland was arrested by highway patrolmen from the Marion sub-station on a charge of operating an overloaded commercial vehicle on route 42 near Cardington at 1:30 this morning. He pleaded guilty before Mayor Frank Aliga at Cardington and was fined $25 and costs, patrolmen reported.

TWO OHIOANS HELD

By The Associated Press

OKLAHOMA CITY, July 31—Two confessed fugitives from the Ohio boys Industrial school in Lancaster—Joe Miller, 24 and Samuel Carr, 22—were held by police here today on charges of burglary and auto theft.

3 SHEEP CLAIMS

Three reports of damage to sheep flocks were investigated by County Dog Warden Elmer Ullom last week he reported today to the county commissioners. Fred Thompson of Marion claimed $10 for the death of a ewe in a flock in Salt Rock township, but in two other cases the warden reported insufficient evidence that the damage was caused by dogs. These two were reported by Roy Stoner of near Prospect, one ewe killed, and Theron L. Huntsman of west of Marion, one lamb injured. Five dogs were impounded during the week.

U. S. PLANS PRODUCTION OF SYNTHETIC RUBBER

By The Associated Press

NEW YORK, July 31—The Wall Street Journel said today the U. S. government had made plans for large-scale production of synthetic rubber as part of the defense program.

Government representatives, the newspaper reported, were conferring with leaders in the chemical, petroleum and rubber industries on details of plant construction, estimates of probable requirements and promotion of private enterprise in the field.

Cited as fitting into the plans was the newly-formed Hydro-Carbon Chemical & Rubber Co., a joint enterprise of the B. F. Goodrich Co. and the Phillips Petroleum Corp. It will turn out Ameripol, a synthetic rubber developed by the Goodrich company, at a starting rate of 2,000 tons annually, with headquarters at Akron.

Ameripol is made from buta, diene, a derivative of petroleum.

Scaffolding that is moved about on wheels and which can be elevated to a height of 30 feet has been designed to aid in work about airplanes.

Pairings Made for Softball Tourney at Upper Sandusky

Pairings for the district softball tournament at Upper Sandusky were made last night at a meeting of tournament officials, Elmer Shaw, of Marion, district commissioner, announced today. The first games of the tournament are to be played Monday, Aug. 5, at Harrison-Smith park. All games are under the lights with three games each evening up to the finals Friday night when two games will be played.

Twelve teams are entered from Marion, Upper Sandusky, Fostoria, Bucyrus and Galion. Those from Marion are Huber, Marion Steam Shovel and Young Democrats in the city Industrial league, Marion Merchants and Eagle All-Stars; the Wyandot Vaults, Star Theater and Hudson Insurance of Upper Sandusky; the Electric Auto Lights and Bersted Manufacturing Co. of Fostoria; Swann Rubber Co. of Bucyrus, and the National Grave Vaults of Galion.

Schedule Listed

The schedule of games follows: Monday, Aug. 5 — Huber vs. Swann Rubber at 8 p. m.; Electric Auto Lights vs. Wyandot Vaults at 9 p. m.; Berated Manufacturing Co. vs. Young Democrats at 10 p. m. Tuesday, Aug. 6—Star Theater vs. Marion Steam Shovel at 8 p. m.; National Grave Vaults vs. Eagle All-Stars at 9 p. m.; Hudson Insurance vs. Marion Merchants at 10 p. m. Wednesday Aug. 7—winner of Huber and Swann Rubber game vs. winner of Electric Auto Lights and Wyandot Vaults at 8 p. m.; winner of Bersted Manufacturing Co. and Young Democrat game vs. winner of Star Theater and Marion Steam Shovel game at 9 p. m. Thursday, Aug. 8—winner of Hudson Insurance and Marion Merchants game vs. winner of National Grave Vaults and Eagle All-Stars game at 8:30 p. m., winners of Wednesday night's games at 9:30 p. m.

Friday, Aug. 9—Finals—Losers of Thursday night's games will play for a consolation prize at 8:30 p. m.; the winners of Thursday night's games will play for the district championship at 9:30 p. m.

Winner of the district tournament will be sent to the state tournament Aug. 9, 10 and 11 at Massillon through the help of the tournament committee. The winner of the state meet has the privilege of competing in the national contest which will be held the week of Labor day at Detroit.

A cup is presented to the winner of the district event by the City Loan of Ohio, which also gives awards to winner's of the other district tournaments in Ohio and the winner of the state contest.

Paul Rice and Harry Williams from Marion will be two of four officials umpiring the games. I. Berg and Burley Hatcher of Upper Sandusky are the others. Three will be used for each game.

Donald D. Cram of Mansfield, formerly of Marion, will be in charge of the protest committee. Protests must be made during the game. They will not be accepted afterwards. Regular rules will govern all games.

MRS. SARAH DETWILLER DIES AT RICHWOOD

Special to The Star

RICHWOOD, O., July 31—Mrs. Sarah Eleanor Detwiller, 67, widow of John Detwiller who died Feb. 13, 1930, died today at 2 a. m. at her home in Richwood. Death followed an illness of anemia. Mrs. Detwiller was born in West Virginia on Dec. 24, 1872 to Isaac and Frances Grant Hostetter. Surviving are two brothers, Waldo Hostetter of Fort Washington, O., and George in Los Angeles, and one sister, Mrs. Caroline Pollock of Hollywood, Calif. The funeral will be conducted Friday at 2 p. m. at the home by Rev. Joy Holliday. Burial will be made in the Delaware cemetery. Friends may call at the Sanders funeral home tonight and at the home after noon Thursday.

FINAL FIELD DAY SET FOR SWIMMING CLASSES

A final field day for the children and adults who were enrolled in the Marion County Red Cross chapter's annual free swimming classes will be held Thursday at 10 a. m. at Crystal Lake park under the direction of Miss Margaret Ann Mautz and Miss Jean Drake, instructors.

Certificates will be awarded those who passed tests, after which there will be races, stunts, games and contests. The pupils have been asked to invite their friends and to pack a lunch for a noon picnic at the park.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Ready to Go

The liver should pour 1 pints of bile into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Then gas bloats up your stomach. You get constipated. You feel sour, sunk and the world looks punk.

It takes those good, old Carter's Little Liver Pills to get those 1 pints of bile flowing freely to make you feel "up and up." Get a package today. Take as directed. Amazing in making bile flow freely. Ask for Carter's Little Liver Pills. 10¢ and 25¢.

EMPRESS ZITA'S CHILDREN IN NEW YORK

New York Artist J J Miller welcomes three of the eight children of former Empress Zita of Austria as they arrive via Clipper plane in New York as war refugees from Europe Left to right are Archduke Rudolph and Archduchesses Adelaide and Charlotte

Marriage Meddlers

By ADELE GARRISON

The Emeralds Safe, the Chief Issues Drastic Orders for the Campaign Against Leslie

"I SHALL be very glad to look at the markings I made upon the emeralds," Queen Olga told my father, "although it really isn't necessary As a whole, it looks exactly as it did when I last saw it I don't think it has been touched except to place it in this box"

"I agree with you," my father said Nevertheless, I should like your identification of each emerald in the necklace If you also will verify the number, I shall be grateful"

"I will do both at once" Olga said promptly, and bent to her task, while we all watched her fascinated When she finally laid the necklace down and lifted her eyes to my father's, I for one, was quite breathless

'Every mark tallies as does the number It is my necklace intact And—I—do not know your laws—is it mine to do with as I wish?"

'Eventually it will be," my father said but there will be certain custom formalities, perhaps some tax, before it can be formally restored to you However, I think I can say that I am in a position to facilitate matters—" he permitted himself a slight smile— so that its return to you will not be too long delayed But for the present, I am afraid I shall have to take charge of it I can assure you it will be as safe as it is possible under present conditions I do not dare send it away from here, because I cannot spare the men to guard it properly on a trip to a suitable safety-deposit vault in the city But I have a safe here, a specially constructed one for the guarding of most important codes and other documents It is fire proof so no matter if the house should burn down the jewels would still be safe"

Burning of the Farmhouse?

I could not repress an involuntary little shiver There was something in my father's voice which made me wonder if he feared Jack Leslie's furious campaign against the farmhouse might include a possible burning of our home But Olga was answering him, and I stifled my uneasiness and turned my attention to her

"Dear Mr Spencer" she said "Whenever it is perfectly safe for you to bring me back the jewels, I shall be glad and grateful to receive them Until then, I am not only content but anxious to leave them in your keeping '

She closed the box upon the scintillating jewels and held it out to him with a charming gesture He bowed with formal courtesy, and took the box from her Then he walked to the table and set the box upon it

'I shall lock it away shortly," he said 'Now one thing more I want you to know that just as soon as it is humanly possible I shall release you from your promise to keep the return of these jewels a secret from your daughter and from Philip Veritzen I know that you must be extremely anxious to share your knowledge with them and I regret—"

Queen Olga interrupted him, something almost never done With her hand flung upward in protest she spoke rapidly emphatically

A State of Seige

"Please! do not regret anything" she pleaded 'I do not deny I should like to share my knowledge with my daughter and with Philip — she spoke her fiance's name regally yet naturally —but—I hope I am a sensible woman, and—I well know how to wait Please do not consider me in the least when you have such momentous business on hand"

'You are very understanding," he said and then his manner changed

'Margaret, will you please take Her Majesty back to her rooms? he asked While you are there, make sure that the bars on the windows are tightly in place Then supplement the window curtains with blankets and draperies There must be no single gleam of light anywhere And your Majesty I must ask that neither you nor your daughter leave your suite again until this crisis is over unless you are summoned to meals or to my suite here"

She bowed her head in acquiescence

"You may be sure we shall follow your orders exactly,' she said

"Good!" he answered, "Margaret, when you have finished, please come back here And—your Majesty, please lock and bar your door behind my daughter, and do not open it again unless you are very sure of the person seeking admittance"

OUR AIR CONDITIONED FUNERAL HOME

For more than four years the advantages of air conditioning have been available to patrons of our funeral home. There are few places more uncomfortable on a hot day than a crowded room in a funeral home with the scent of flowers in the warm air. Our air conditioning unit keeps this home comfortably cool on even the hottest day.

SWEETER AND QUICKER

Use sugar syrup for sweetening summer beverages. It does a better job of sweetening than if you use plain granulated sugar and it's quicker It often requires much stirring to dissolve the sugar To make the syrup, boil five cups of sugar in five cups of water 10 minutes Cool, pour into a jug or bottle, cover and store in the refrigerator.

Two Kinds of Hard Heads

THIS week it becomes impossible for dealers in scrap metal to export it without the federal government's permission—and permission presumably will be hard to get

This does officially what most Americans have been in favor of doing all the time It takes the United States out of the absurd position of helping nations not interested in helping it

One of the nations is Japan which has been obtaining as much as 85 per cent of the scrap steel needed for its munitions industry from United States dealers Americans have blushed often over this situation so have some of the conscientious dealers.

They might have been spared the final blush of knowing that vessels are being loaded with scrap steel this week to get under the deadline There are two kinds of hard heads among business men—heads which can't be penetrated by googoo arguments and heads which can't be penetrated by anything Scrap metal dealers who helped to arm Japan for years contrary to public policy then crowded in a last few frantic shiploads to beat the deadline tardily laid down by an administration which couldn't make up its mind must have consciences made of their stock in trade

History's Strangest Sea Battle

FROM Narvik in northern Norway to Brest in France Germany controls all the landheads in a semi circle commanding great Britain on the east and south The result is history's strangest sea battle

Until recently, when mosquito and torpedo boats were mentioned Germany's direct attack on the powerful British navy was being carried out by airplanes Recently Nazi bombers were reported operating against convoys off northern Ireland an indication of the scope of Germany's air blockade being used to offset Britain's sea blockade

It is as though Germany had lined the coast commanding eastern and southern Britain with long range guns capable of destroying shipping and laying down a barrage in the farthest corner of the island British retaliation in the form of counter raids from the air and an occasional attack from the sea is relatively feeble because it must be distributed over such a vast area

The war against Great Britain by Germany and Italy is to determine control of the European seas, yet only in the Mediterranean is it a naval war Even there reports of recurrent Italian bombing raids on Gibraltar reflect the airplane's importance in the struggle for naval supremacy

Whatever Becomes of Them?

THIS thought, of no importance whatever hadn't intruded itself since one day last winter when no one could remember when the temperature hadn't been below freezing What happens to the backward lookers when weather runs to extremes?

Backward lookers think weather is petering out, like humanity The snows aren't so snowy and the winds aren't so blowy And in the good old summertime— You think this is hot, hey? Well just let me tell you about the time we fried eggs on the sidewalk in front of Joe Hoopledoople's saloon "

Last winter which was by way of being a record breaker took the starch out of the backward lookers. They talked mighty small particularly when they began to burn more coal than they'd ever burned before This summer—this concentrated version of summer—they aren't saying a word just gasping for air the same as everybody else

Overdoing It

A SYMPATHIZER with the British in their effort to stave off invasion could wish sometimes they were less successful in the aerial department There is scant comfort in reports of successful British air raids along the French coast, of destructive forays deep into Germany of Nazi raiders being shot down over Britain by the dozen

The reports mean one of three things (1) That British aviators and planes are superior to the enemy's aviators and planes therefore more successful (2) That British propagandists are stretching the truth to bolster morale (3) That British counter-attacks and home defense are doing everything claimed for them in official announcements

The first possibility may have something to it, but probably not much, because of Germany's admittedly larger air force The second possibility may be ruled out. The third may be taken at its face value, which is where misgivings start. If Britain is doing as much damage as is claimed then Germany, with more planes being aimed at a smaller target, must be blowing southern Britain to pieces, besides shooting down as many as 10 per cent of all British planes being used for counter-attack

SCENIC ATTRACTIONS

News Behind the News

Argentine Policy Believed Handicap at Conference Held in Havana

By PAUL MALLON

WASHINGTON, July 31—The American delegation found out a lot more at Havana than its bulging portfolios will record

The difficulty with which the United States is confronted all south of the Rio Grande became apparent in the conversations of the problem child of the Americas, Argentina The Argentine statesmen were afraid of the United States but more afraid of Germany That's it They wanted the security of this hemisphere but they also wanted neutrality

Paul Mallon

There was the strictly neutral role of Belgium and Holland It may have looked to American news readers like at least a fourth and a half column policy but it was really only appeasement again (My information comes well from Havana)

Argentina is determined to make itself more self sufficient less a raw material country That is a laudable purpose It would like our financial aid to industrialize and believes (correctly) its central government credit is so good that it can borrow in Wall Street anytime

But for us to finance Argentine industrialization as indeed we have been privately doing for years is to reduce and cut off eventually our actual or potential market for our industrial products They won't want ours when they can make their own

Knowing all that the Americans at Havana were nevertheless willing to finance Argentina if the Argentines would only play ball They didn't would it simply because there is something far more important than balanced economics and that is life itself

Diplomatic Solidarity

New headlines have giddily proclaimed the defensive security that the conference assures for the Americas without any recognition of the fact that U S battleships alone will be responsible for that security No one else in this hemisphere has anything to supplement the pious declaration The U S delegation was entirely aware of that during the conference but naturally wanted diplomatic support

The conference therefore amounts only to a step a big step toward diplomatic solidarity be hind our guns

Note Washington let the word get around the conference that it was strengthening the Curinname marine garrison and planning to base additional ships at this single keystone defense point of the Caribbean

Patience

The patience which State Secretary Hull exhibited was not shared by all the American business men who sat around the Hotel National

In their excellently schooled opinion our friends down south do not respect anyone who has power and yet lets his toes be trampled

Their New Dealism may be somewhat tarnished by experience but in their opinion the way to handle the defense of this hemisphere is with the U S as the Colossus of the north a phrase which seems far more dramatic than accurate No ships have been sailing between our legs bearing gold from the south Rather we have been a Gulliver towing such ships from those ports as we could find

Firmer Policy Urged

These business men with experience favored a firmer Latin policy than the administration has seen fit to adopt under Mr Hull They thought the way to settle the Mexican problem for instance would be to

(1) Stop buying Mexican silver at an excess price

(2) Blockade Mexican exports of stolen oil and stolen chicle (Theft refers to seized American lands for which no remuneration has been received)

(3) Retaliation with force for any anti American acts

The theory of course is to create respect by power not by kindness alone

Even Cuba according to local Americans in Havana has virtually confiscated large sums of American investments in mortgages (sugar controls etc) The new constitution puts a 30 year (yes 30) moratorium on all existing mortgages and a low rate of interest Mortgages already greatly modified according to capacity to pay are now taken with the scope of the new gift confiscation

If our guns are going to defend this hemisphere our diplomats and economists should be allowed to defend it with equal freedom and force If we are going to be responsible for something we should be able to control it —not for our selfish citizens but for all our people who are interested nobels in their security and the security of those around us

Greedy objections lust for profits should no more be tolerated in Mexico in the name of the people than the same things in the U S in the name of Wall Street There is a halfway mark of harsh armed fairness which is not hard to find and the American delegation seems to be groping toward it even though its somewhat sissified gestures here failed fully to reveal it

Some Tax Fallacies

By Harley E Lutz

Professor of Public Finance Princeton University

THE fixed idea that taxes on profits and net income are the best kind of taxes led the country into the morass of public debt in which it now finds itself They proved to be the worst kind of taxes for depression conditions and as they failed an increase of debt was fixed upon as the only way out There is some indication that the same fixed idea will bog down the effort to keep the defense program on substantially a pay as you go basis

Some grotesque applications of this fixed idea have been proposed For example Senator Byrd told the Senate that he wanted to make the 10 per cent mark-up of income tax retroactive to 1939 incomes In fact there is no more residue of the incomes received by most people in 1939 than there is of the cigarettes they smoked in 1939 Yet such a suggestion seems entirely logical to any one who believes that personal net income is something real and permanent simply because it is a product of certain bookkeeping operations that are prescribed by the tax law If congress is to levy on past incomes why not go back to 1929? Many persons had a large income that year True some of them are on relief today but it would be about as sensible to take 1929 as it would be to take 1939 as a base for retroactive income taxes on Only about one per cent of the federal taxpayers have any more left today out of 1939 income than they have out of 1929 income

AN EVEN more absurd proposal was the amendment which Senator Connally hitched to the 1940 tax bill It was a rehash of the income tax law with personal exemptions of $800 and $1-800 a normal tax of 10 per cent surtax rates starting at 1 per cent on the first $1 000 of surtax income and rising to 70 per cent of all income above $50 000 The basic corporation tax rate was to be 22 per cent An excess profits tax was also included The measure was to become effective upon declaration of war by Congress

Senator Connally said that the treasury estimated a yield of 8 billion dollars on the basis of 1938 incofe returns. The treasury statisticians evidently overlooked the final portions of the bill which gave the President power to fix wages rents interest prices of goods and property including real estate and authority generally to exercise complete dictatorial power over economic life The dictatorship provisions were removed before the bill passed the senate but no one suggested the utter absurdity of an estimated yield of 8 billion dollars of taxes annually from the subsistence incomes that the bill would have authorized the President to decree Both the Connally bill and the even harsher Bone bill aim at confiscation of all income and property If it is necessary to go this far Germany will hardly attack for we shall have adopted the totalitarian way without argument

The present jittery attitude about excess profits is a hangover from the first World war The great increase of corporate and personal incomes at that time occurred from 1914 to 1918 when the country was engaged in the lucrative peace time business of supplying the Allies There were 330 personal incomes of $300 000 and over in 1914 1 296 in 1916 and 395 in 1920 Corporation net income before taxes rose from $3 940 millions in 1914 to $10 730 millions in 1916 and declined to $ 903 millions in 1920

THE principal obstacle to large profits is high costs Rising costs checked the growth of profits during the first World war Today industry is subjected to regulations which mean high costs and which will tend to keep profits down If profits are excessive under present conditions the chief reason will be looseness in the government contracts With competent control of contract policies there should be no serious general problem of excess profits With political control of the defense program there will likely be a liberal contract policy made possible by a liberal debt policy and sanctioned by foolish theories about the virtues of spending The natural result will be excess profits and a case for an excess profits tax

The people should understand this No firm will earn too much in producing the defense equipment unless the government pays too much for its product Careful attention to business matters of this sort always gives a politician a headache He would much prefer to neglect the business end in order to engage in rabble-rousing talk about war millionaires excess profits and drastic taxation of those who gain excessively out of munitions manufacture

As the delegation marched from the Union station to the home a Mansfield airplane flew above the parade Special arrangements had been made for a landing field for the plane at the Reber farm just north of the city Special hat bands were worn by the men and the women wore streamers in the parade S J Colwell president of the Richland county Harding club was in charge of the delegation Senator Harding expressed his pleasure over the visit and pointed to Richland and Marion counties as proof of the good fortune that lies in factory and farm moving in accord to make the ideal combination He spoke on the interdependent mutuality of interests of all the people of the country and called for a closer intimacy and understanding between manufacturing and agriculture stating that the manufacturing centers and food producing areas complement and supplement each other and are bound together by common ties of national history and aspiration A reception followed the address The special trains bearing the delegation home left at 6 p m

Worried About Tea

By The Associated Press

BERNE—Swiss authorities are encouraging citizens to grow their own substitute tea

With overseas communications getting more difficult, it is not certain how long the Swiss will be able to get tea from Ceylon and China

Consequently the Swiss Office for War Provisioning has appealed to all gardeners to gather the leaves of blackberries strawberries, mint and lime-tree blossoms so they may be used as substitutes for tea.

G. O. P. Hopes Rise

20 Per Cent Vote Shift Would Elect Willkie, Poll Shows

OUTCOME of the 1940 presidential election is in the hands of voters who haven't made up their minds

Wendell Willkie has added enormous strength to the Republican party Fortune Survey of Public Opinion reports a 19 per cent rise in Republican prospects after his nomination

But though Willkie's nomination brought the Republican party within striking distance of the party in power—less than 4 per cent behind according to Fortune Survey — the decision rests with voters who haven't decided yet what they will do

As political sentiment now stands declares Fortune whose public opinion survey accurately forecast the result of the 1936 election President Roosevelt now holds majorities only in the south Against the Republican field which included the Dewey Taft-Vandenberg triumvirate plus the dark horses Roosevelt in June seemed to have a spectacular lead of nearly five to three but now the spread between Roosevelt and Willkie is less than 4 per cent This shift during a single month amounts to a political blitzkrieg for the Republican party Now Willkie is actually favored over Roosevelt everywhere except rural communities

While the conclusion that President Roosevelt would carry little outside the solid south if the election were held now may be defensible it is evident there are possibilities of wide change before next November Willkie's campaign remains to be disclosed he is in danger of making political mistakes which his opponent after two successful campaigns for the presidency isn't likely to make Mr Willkie is running against the shrewdest and most powerful politician on the American political stage

BETTING on the election reflects objective opinion that Mr Willkie's chances of success are a little less than even but considerably better than two to one Here again much depends on the campaign If one voter in every five who voted for Mr Roosevelt in 1936 switches to Mr Willkie this year the Republican party's candidate would have a better than even chance

The Democratic victory in 1936 was so overwhelming that a 10 per cent shift away from its totals of that year would not change the 1940 outcome In other words if Republicans held every vote they polled in 1936 and if only one in 10 Democratic voters switched Republicans would get three states — Kansas Massachusetts New Hampshire—in addition to Maine and Vermont

But if one in every five Democratic voters of 1936 should vote Republican in 1940 and all 1936 Republicans should hold solid the story would be far different The Republican party then would get the three most populous states —New York Pennsylvania Illinois The same 20 per cent shift would give the party 19 states with 248 electoral votes With only 18 more electoral votes it would win

Six states—Ohio Missouri Colorado Maryland New Mexico and Wyoming — would be doubtful after a 20 per cent shift To elect Willkie the Republican party would have to get 18 electoral votes from the 61 votes of these six states Ohio's 26 votes would turn the trick even if all the other five states went into the Democratic column

The Turps

Ethel's Fed Up with Watching Actors Eat in the Movies But Gets No Sympathy from Joe.

By DAMON RUNYON

Mr Joe Turp Writes From Brooklyn —

DEAR SIR My wife Ethel and me went to the movies last night and afterwards as we was home getting ready for bed she says Joe why do they always have people eating things in the movies?

She sees in that movie tonight they had people eating their breakfast but sometimes they have them eating their dinners or some time between like apples. I get awful tired of seeing people eating in the movies. Joe what is wonderful about people eating that they got to show them doing it in the movies?

I ses look Ethel baby doll I never think much about it before but maybe it is because the fellows who make the movies want to keep the actors in practice at eating when they are not in the movies.

She ses O you are always making fun of something and I am serious about this. I go to the movies to be entertained and to see beautiful scenes and then they show me somebody eating something I do not think a beautiful scene to see somebody eating something in the movies What is beautiful about seeing a lot of actors teeth and sometimes down in their throats when they are eating they want to have people eating things in movies why don't they make them turn their backs to the audience so nobody can see down their throats?

MY WIFE Ethel ses you take that fellow who took the part of the hero in that picture tonight for instance I always like to see him in the pictures because he is so handsome manly but when they had him eating his breakfast in that picture tonight I was afraid he was going to stick his fork in his eye

Besides he took awful big bites of every and chewed as wide as a horse Do you think this is an attractive sight Joe? I ses look Ethel the movies are supposed to show us how life is and eating is surely one way life is but they had those people eating breakfast picture tonight to make it seem natural and let you know they ate their breakfasts and I ses well why don't they have somebody say people had breakfast and not be showing them eating and chewing as wide as a horse"

She ses if they want to let us know people in the movies had their dinner when they say out loud we had our dinner and not be showing them eating their dinners or suppers or even apples in between and chewing as wide as a horse? Joe you know yourself they are always kicking when they show us those closeup pictures of singers with their mouths open so you can see all their bridgework you should think you would notice about those people eating in the pictures

MY WIFE Ethel ses another thing I never get a chance to go to the movies until after I have made the dinner at home and all the other women in this town are like me and by that time we are sick and tired of it and it is not justice for us to have to watch more people eating in the pictures when we are looking at beautiful scenes

I ses look Ethel honey what do you think you are sick and tired of watching people eat at home? I ses the only people you have to watch eat at home is me and she ses well you are the people I mean I ses what is so wrong about having to watch me eat and she ses you eat an awful lot. I bet anything that half the divorces in this world are because women have to watch their husbands eat

I ses Ethel if I made any chumping noise tonight when I ate it was because the girdle of yours you cooked up for me for supper was so tough I had to champ to get any use with it I ses I did not want to say anything about it but now you have brought it up about those spareribs and sauerkraut you almost poisoned me with last Wednesday

SHE SES O I knew when you peeked at me weighing last night you would say something mean later on Anyway you make champing noises when you are only eating mush sometimes you talk with your mouth full that is why I do not like to walk into the room after watching you and find people eating at the movies too I bet if you asked all the men in this town who have husbands they would say let us not have any more pictures of people eating in them especially heroes

Well Ethel I ses if you are through with me about the way I eat I am going to the movies she ses all right you can go but I want to tell you something else I just remembered that I was carrying my handbag when I weighed on Schultz scales and besides Schultz scales are a liar

Yours truly
JOE TURP

Idle Executives

From International Altrusan

Executives are a fortunate lot for as everyone knows an executive has nothing to do that is except

To decide what is to be done to tell somebody to do it to listen to reasons why it should not be done why it should be done by somebody else or why it should be done in a different way and to prepare arguments in rebuttal that shall be convincing and conclusive

To follow up to see if the thing has been done to discover that it has not been done to inquire why it has not been done often to excuses from the person who should have done it and did not do it and to hear arguments to overcome the excuses

To follow up a second time to see if the thing has been done to discover that it has been done incorrectly to point out how it should be done to conclude that as long as it has been done it might as well be left alone to wonder if it was not time to get rid of persons who cannot do a thing correctly reflect that in all probability any substitute would be just as bad or worse

To consider how much simpler and better the thing would have been had he done it himself in the first place to reflect dejectedly that if he had done it himself he would have been able to do it right in 20 minutes and that as things turned out he has just spent two days trying to find out who failed that it had taken someone else three times to do it wrong and to realize such an idea would have had a very demoralizing effect on the organization because it would strike at the very foundation of the belief of all executives that an executive really has nothing to do

Anecdotes of Ohio

By GILBERT F DODDS

Francis Dunlevy fought Indians for a time then gave it up to teach in one of the schools established in the Northwest Territory

He came to the school in Columbia at the mouth of the Little Miami river in December 1788 ending an exciting career of Indian fighting which began when he was 14

As an Indian fighter, Dunlevy took part throughout the Northwest Territory In particular in the fight at Sandusky Plains in 1782 when Colonel Crawford was captured

After a few years of teaching Dunlevy served as a delegate to the Ohio Constitutional convention Later he served 14 years as common pleas court judge.

Marion Legion Nine To Open Bid for State Title at Canton Tomorrow

Face Mansfield First in Tourney; Fifteen Players Make Trip.

By CHARLES HOSTETLER
Marion Star Sports Editor

FIFTEEN Marion youths comprising the American Legion junior baseball team, their coach, manager and mascot embarked this morning for Canton where tomorrow they will open their fight for state laurels in the 14th annual Ohio tournament.

The locals last week won the right to represent the Sixth district by sweeping to the title with two straight victories over Camp Chase Post of Columbus. They will get their first test in state competition against Mansfield, winner of the Fifth district crown.

The Marion-Mansfield game is one of a quartet of second-round duels scheduled for Thursday afternoon. It will be played at 1:30 at the Lakeside stadium grounds, home park of the Canton Terriers, of the Middle Atlantic league.

First Games Today

Early elimination rounds are scheduled for this afternoon. Tonight all 11 teams, representing as many Ohio districts, will be feted with a banquet at Hotel Belden in Canton. Several outstanding diamond stars are scheduled to appear at the banquet and officials announced that efforts have been made to have Bob Feller, Cleveland Indians' pitching ace on the program.

Coach Bill Williams and Manager Thomas L. Hurley will direct the squad on its try for state honors. They reported that the full roster of 15 members would make the trip and that the entire party will be quartered at Hotel Belden during the stay in Canton. By leaving early today they hoped to be able to get in a practice session on the tournament field late this afternoon.

Should Marion be successful in its opening duel with Mansfield the locals will remain in Canton to enter the tourney semi-finals Friday. The final tilt for the Ohio championship is scheduled for Saturday with the titlist qualifying for the divisional tourney in which winners from Ohio and five other states will meet.

Record Reviewed

Marion packs an enviable record into the competition but the spot of favorite goes to Louisville defending state champ. The locals have won 12 in 15 starts. They racked up two straight against Delaware to win divisional honors and then repeated the performance at the expense of Camp Chase to win the district title. Delaware fell by counts of 29-1 and 14-1, while Columbus went down to defeat, 7-5 and 7-6.

Charles Bowers, ace righthander, is the likely choice of Manager Hurley and Coach Williams to start against Mansfield. He is credited with both wins over Columbus and earlier in the season chucked a two-hitter against Lima. His battery mate will be Bob Reams. In the event that Marion wins the first game, Bowers may be shifted behind the bat for the Friday contest which would hand the mound duties to Tom Burrey.

Twelve-year old James Leighty, a resident of the Marion county children's home and the team's mascot, will make the trip with the club. Members making up the playing roster are Charles Bowers, Thomas Burrey and Donald Kay, pitchers, Robert Reams, catcher, Owen Crenrap first base, Harold Garver, second, Thomas McConnell shortstop, Loren Willoughby third base, Joe Roseberry, left field, Harold Jenkins center field, Gene Shellhorn, right field, with James Turner, Fred Ruhl and Richard Cleary, utility infielders.

Legion Schedule

Today's opening schedule:
Toledo vs. Lima at Canton
Middletown vs. Logan at Canton
Warren vs Louisville at Louisville (Stark county)

Thursday's second round games, all at Canton, are: winner of the Toledo-Lima game vs Springfield, winner of Middletown-Logan game vs Portsmouth, and Mansfield vs Marion. The latter teams drew byes.

More than 7,500 boys in about 500 teams competed in the preliminary games in Ohio, all of them under 17, last Jan. 1.

League scouts will be on hand for the Ohio series. Among the better known big league stars who started as Legion players are Bob Feller, Cleveland's ace pitcher; Fred Haney, skipper of the St. Louis Brown, and Catcher Mickey Owen.

SPORTS
THE MARION STAR

Merchants Lose Night Tilt

The Marion Merchants softball team was defeated 11-2 under the lights last night at Howard, O., by the Zone Cabs of Mt. Vernon. McKee, Mt. Vernon hurler, gave four hits and fanned six.

Score by innings and batteries follow.

Merchants	010 010 0—	2 4 6
Mt. Vernon	304 013 x—	11 7 2

Kunkle and C. Reid, McKee and Van Riper.

Games Planned To Raise Funds for Lincoln Park Fence

A new fence at Lincoln park for the "Little World Series" is the objective of Marion softball officials who have been promoting fund-raising activities for this project.

Half of the $700 needed for the purchasing 1,700 feet of lumber has been raised. The national youth administration will supply labor for erection of the fence, which will bring its value to approximately $1,500.

A series of benefit games is scheduled by softball officials in an attempt to speed the raising of the fund. Each Sunday two or three games are to be played at Lincoln park with a small admission fee. During the week the outstanding city league softball game is also to be played there.

After the fence has been completed, it is the hope of softball officials to commence raising additional funds for an electric lighting system for night ball, and to cover the stadium with a roof. The softball commission was instrumental several years ago in building the $20,000 cement stadium as a city WPA project.

The park, owned and cared for by the city, will accommodate both hard and softball games. It will be open to all Marion teams.

A benefit program for Sunday has not yet been completed. The Marion Eagles, recent entry in the North Central Ohio baseball league, will play their first league tilt with the Ontario ball club in the main attraction of the afternoon. The Marion R. A. C.'s and the Marion Colored A. C.'s will tangle in the only other game billed thus far. Arrangements are under way now for a softball game also.

The first game will start at 1 p. m. Admission is 15c for adults and 10c for children. Red and white tickets will be accepted.

Frog Man Sets Swimming Record

By borrowing an idea from the frog, youthful Bill Buerkle has made Johnny Weissmuller look like a slow-moving turtle. Buerkle strapped a couple of rubber "swim fins" to his feet, dived into the Roman plunge at Del Monte, Calif., and swam 50 yards in 17.2 seconds. Weissmuller's record for the distance, set at Columbus in 1922 is 22.8 seconds. The best Buerkle can do normally is 23.1. Though called fins, the contraptions worn by Buerkle actually are more analagous to web feet. They permit the legs to give a powerful push. San Francisco A.A.U. swimming officials were not much interested in Buerkle's "record."

LIMA EDGES FOSTORIA

By The Associated Press

FOSTORIA, O., July 31 — The Fostoria Red Birds, hopelessly out of the running in the Ohio State league championship race, still make the other teams earn their victories. A case in point was last night's 8 to 9 loss to the league leading Lima Pandas in 10 innings. Findlay scored in the last half of the ninth inning for a 5 to 4 victory over Mansfield. Fremont took a 7 to 2 licking from the Toledo American association club in an exhibition game.

Feller Tosses Indians into Tie for Lead with 2-1 Victory over Red Sox

By JUDSON BAILEY
Associated Press Sports Writer

There is just no way to make sense out of the American league pennant scramble.

First the Boston Red Sox looked as if they were going places. Then the Cleveland Indians went on the warpath. Intermittently the New York Yankees showed signs of awakening. Now recently the Detroit Tigers have been setting the pace.

But today for at least the fifth time this season the leaders are in a tie and there positively is no possibility of predicting how the race will wind up.

Cleveland, which once gained first place by the simple process of losing four games in a row, moved back into a deadlock for the lead last night by the equally unspectacular feat of winning one game in a row.

49,238 Fans

Bob Feller kept eight hits scattered efficiently to beat the Boston Red Sox 2-1 in front of 49,238 fans. It was 17th triumph of the year and came at exactly the proper time to capitalize on a losing streak by the Tigers.

The Indians claimed a share of the lead today by a pitching and fielding spectacle that produced a 2 to 1 victory over the Red Sox last night and left spectators hoarse from cheering.

Bob Feller got most of the glory for the victory—his 17th. He staved off one scoring threat in the seventh by fanning Jimmy Foxx and Dominic DiMaggio with the bases loaded, then let the infield handle a second threat in the ninth. Coupled with the infield's performance was the failure of Manager Joe Cronin's strategy.

Lou Finney led off with a single for the Sox in the last frame and Jim Tabor fouled to Hal Trosky. Cronin then sent Fritz Ostermueller in to run for Finney who has an injured knee and Ostermueller took second on Bobby Doerr's single. Then came the fireworks.

Cronin Fails

Ray Mack fielded Johnny Peacock's grounder and threw to Lou Boudreau forcing Doerr. Boudreau prepared to throw to Trosky, but seeing no chance to get Peacock, turned and hurled to third baseman Ken Keltner. Ostermueller had rounded third, but Keltner chased him toward the plate and tossed to catcher Rollie Hemsley who tagged the runner out as he slipped and fell in an effort to avoid the putout.

Feller struck out eight men and yielded eight safe blows, while the Tribe reached starter Jim Bagby and Jack Wilson for nine hits.

Boston's defeat lifted New York within 6½ games of the lead and one game out of third place.

The National league issue appeared more cut and dried than ever after the Cincinnati Reds snatched a 6-3 decision over the New York Giants and the Brooklyn Dodgers lost an 8-2 nocturnal tussle to the Pittsburgh Pirates. This set Brooklyn back to eight games behind the Reds.

The Pirates, who now have won nine out of their last 11 games, scored four times in the first inning and with Truett Sewell pitching six-hit ball, the Dodgers never had a chance.

The St. Louis Cardinals pounced on the helpless Boston Bees with a 19-hit attack that was good for a 13-5 victory. Johnny Mize hit his 27th and 28th home runs of the year.

The Phillies managed to nose out the Chicago Cubs 7-5 although outhit 16-11. The Chicago White Sox extended their surge at the expense of the Philadelphia Athletics with a 3-1 victory on the five-hit hurling of Jack Knott and Pete Appleton.

Dutch Leonard shut out the St. Louis Browns 4-0 for Washington in a night game, spacing seven hits and striking out seven.

Epworth Seizes Lead In No. 1 Sunday School Loop

Epworth took over the lead in the Sunday School No. 1 loop last night by defeating Calvary as the slipping Oakland squad dropped before Trinity. Forest Lawn climbed out of the cellar by blanking Wesley.

Epworth demonstrated the form that won the circuit pennant last year by downing the last-place Calvary squad in blitzkrieg fashion, 20-4. The winners belted out 23 hits as their ace twirler, Maury Whitcum let Calvary down with four base blows. It was the tenth win for the last climbing Epworths who are now a full game ahead of Oakland.

Trinity blasted Oakland out of a tie for the league's top spot by shelling the latter, 10-0, behind the three-hit pitching of Bob Rice, star mound artist for the winners. Trinity nicked two Oakland twirlers for 10 bingles, including a four-bagger by Jone. It was the second straight setback for the losers, who had been leading the league for the better part of the season until dropping a tie for first position with Epworth last week when the latter defeated them.

Forest Lawn shook off its cellar dust with a 4-0 win over the fourth-place Wesley team. It was the third time this season the winners marked one up in the win column. Stinson limited Wesley to one base hit as his teammates pounded the losing pitcher, Lashey, for seven hits. This victory boosts Forest Lawn a half game ahead of Calvary for a game and a half behind Wesley.

In Sunday School No. 2 league play Reformed shellacked Salem, 10-1.

BLENDED 33 TIMES TO MAKE ONE GREAT BEER!

It's the happy blending of 33 separate brews.

Pabst Blue Ribbon is served in more homes—at more parties and picnics—than any other beer.

And the reason? It takes not one, not five, or twelve . . . but 33 separate brews from 33 separate kettles, to make a single glass of BLUE RIBBON!

Each brew is as fine as choicest ingredients and Pabst's 96 years of experience can make it.

Then all 33 brews are brought together in perfect balance.

An expensive way to brew? Of course! It's like blending champagne, coffee or tobacco to produce the finest. And that's what makes it America's Premium Beer, with a smoothness that is unique . . . and a goodness that never varies.

Meet Blue Ribbon today!

GERMANS CLAIM HUGE SUCCESSES AT SEA

Say 1 270 000 Tons Sunk Since June 25

By The Associated Press

BERLIN July 31—Authorized German spokesmen said today that German sailors and fliers making up only a part of Germany's armed might have sent to the bottom of the English channel and other seas 1 270 000 tons of British shipping since June 25

Spokesmen said these figures should quiet any suspicions abroad that Germany is carrying on the war half heartedly.

They declined to comment on the statement of Virginio Gayda Fascist editorial spokesman in Rome that a direct attack on England is not to be expected immediately But they said there is a question of the meaning of the word immediate

REPORT "WALLY" TO UNDERGO OPERATION

By The Associated Press

NEW YORK July 31—The New York World - Telegram says it learned from close friends of the Duchess of Windsor that she had reserved rooms at a small private hospital here for a plastic surgery operation Sept 9

The Duke and Duchess of Windsor are expected here soon en route to the Duke's new post as governor of the Bahamas islands

Both the doctor and the hospital mentioned by the newspaper declined to comment on the report

HUGE SHELL PLANT ADVISED BY ARMY

$6,000,000 Factory Urged for Pittsburgh Area.

By The Associated Press

WASHINGTON July 31—A new $6 000 000 forging plant in the Pittsburgh area was recommended to congress today as part of the national defense program

Army and navy experts, testifying before the house appropriations committee during its consideration of the second national defense bill listed this and other items as highly essential

Major Gen C M Wesson chief of the army ordnance department urged appropriation of $24 000 000 for four forging plants to be used in forging and machining shells He said they would be located where steel was produced and labor was available one to be in the Pittsburgh area

Rear Admiral W R Furlong chief of the navy ordance bureau asked $50 000 000 for five or six new gun factories which he predicted would be located in manufacturing districts from Pittsburgh to St. Louis.

DIES IN NEW PLANE

The Gumps — By Gus Edson

YOU'RE HERE IN ANSWER TO MY ADVERTISEMENT IN TODAY'S PAPER? BE SEATED, MR ER--
MY FRIENDS CALL ME HARRY-THE-HAND BECAUSE I'M QUICKER THAN THE EYE, HA-HA!
NOW, WHAT'S THE PLOT? WHO DO YOU WANT FRISKED?
NO-NO-I DON'T WANT ANYONE'S POCKET PICKED! I DESIRE YOU TO PUT MONEY INTO A CERTAIN MAN'S POCKET
-BUT OF COURSE MR ER-HAND, I REALIZE THAT TAKES AS MUCH SKILL AS POCKET PICKING-ARE YOU SURE YOU'RE QUALIFIED FOR THIS-ER-WORK?
ME QUALIFIED? HAR-HAR! DON'T MAKE ME LAUGH!
HERE'S YOUR CLERK'S TEETH, MR GUMP--
WH-
